## Laporan Porjek UTS

## Pemrograman Komputer 2

NAMA : Dimas Shofa Gunarso

NIM : 18090061

PRODI : Teknik Informatika

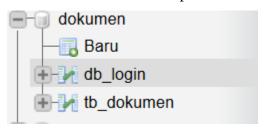

KELAS : 4B

# POLITEKNIK HARAPAN BERSAMA KOTA TEGAL

## Manual book Arsip Dokumentasi

#### 1. Membuat data base

- Buka xampp, lalu aktifkan Apache dan Mysql dan pilih admin untuk masuk ke phpmyadmin
- Lalu kita buat basis data seperti di bawah ini :

Bagian db\_login kalian bikin seperti di bawah ini :

- Bagian tb\_dokumen bikin seperti di bawah ini :

- Membuat data base sudah selesai

#### 2. Menyiapkan Project

- Buka aplikasi Netbeans anda, kemudian buat project baru dengan nama Dokumen.
- Setelah anda membuat project baru, buatlah package baru dengan nama Apps

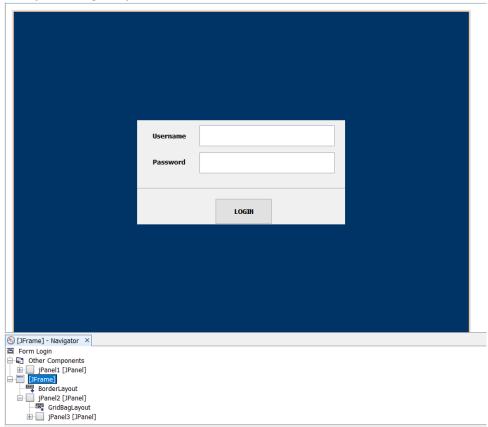

#### 3. Membuat kelas

- Buat class "konfig" dan buat Jframe "Login","dokumen"
- Class konfig fungsinya untuk menyambungkan ke database, Isikan di class konfig seperti dibawah ini :

```
package Apps;
import java.sql.Connection;
import java.sql.DriverManager;
import java.sql.SQLException;
public class konfig {
  private static Connection MySQLConfig;
  public static Connection configDB () throws SQLException{
    try {
      String url = "jdbc:mysql://localhost:3306/dokumen";
      String user = "root";
      String pass = "";
      DriverManager.registerDriver(new com.mysql.jdbc.Driver());
      MySQLConfig = DriverManager.getConnection(url , user , pass);
    } catch (Exception e) {
      System.out.println("Koneksi Ke Database Gagal"+e.getMessage());
    return MySQLConfig;
  }
}
```

#### 4. Jframe

- Buat jframe login seperti di bawah ini :

- Lalu isikan seperti di bawah ini :
  - 1. Kita import seperti ini package Apps;

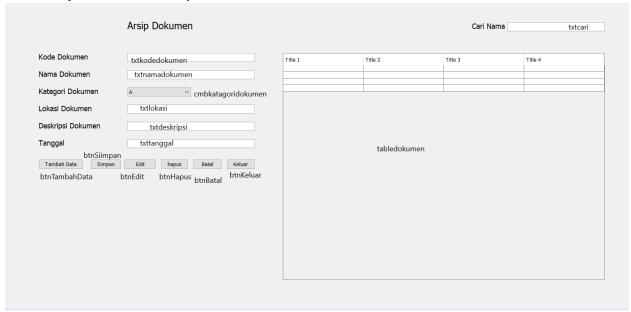

import java.awt.Frame; import java.security.MessageDigest; import java.security.NoSuchAlgorithmException; import java.sql.Connection; import java.sql.ResultSet; import java.sql.Statement; import javax.swing.JOptionPane; 2. Ikuti saja biar jadi seperti ini

```
java.awt.EventQueue.invokeLater(new Runnable() {
      public void run() {
         Login login = new Login();
         login.setExtendedState(Frame.MAXIMIZED BOTH);
         login.setVisible(true);
      }
    });
3. Codingan untuk menjalankan jframe login
public void doLogin() {
    btnlogin.setEnabled(false);
    String user = txtusername.getText();
    char[] pass = txtpassword.getPassword();
    if (user.isEmpty()) {
      JOptionPane.showMessageDialog(this, "Username harus diisi");
      txtusername.requestFocus();
    } else if (pass.length == 0) {
      JOptionPane.showMessageDialog(this, "Password harus diisi");
      txtpassword.requestFocus();
    } else {
      String password = new String(pass);
      String md5_pass = md5(password);
      try {
         Connection c = konfig.configDB();
         Statement st = c.createStatement();
         String q = " SELECT * FROM db login "
             + "WHERE username = "" + user + "" "
             + "AND password = "" + md5 pass + """;
         ResultSet rs = st.executeQuery(q);
         int n = 0;
         while (rs.next()) {
           String u = rs.getString("username");
           String p = rs.getString("password");
           n++;
        }
         if (n == 0) {
           JOptionPane.showMessageDialog(this, "Username/password salah!");
           txtusername.requestFocus();
           btnlogin.setEnabled(true);
         } else {
```

dokumen kar = new dokumen();

```
this.setVisible(false);
           kar.setExtendedState(Frame.MAXIMIZED_BOTH);
           kar.setVisible(true);
        }
      } catch (Exception e) {
        System.out.println(e.getMessage());
      }
    }
  }
  public static String md5(String data) {
    String hashed = "";
    try {
      MessageDigest md5 = MessageDigest.getInstance("MD5");
      md5.update(data.getBytes());
      byte[] byteData = md5.digest();
      StringBuilder sb = new StringBuilder();
      for (int i = 0; i < byteData.length; i++) {
        sb.append(Integer.toString((byteData[i] & 0xff)
             + 0x100, 16).substring(1));
      }
      hashed = sb.toString();
    } catch (NoSuchAlgorithmException e) {
    return hashed;
  }
}
```

Membuat jframe dokumen seperti ini :

Lalu isikan seperti di bawah ini :

```
package Apps;
import java.awt.HeadlessException;
import java.sql.Connection;
import java.sql.SQLException;
import javax.swing.JOptionPane;
import javax.swing.table.DefaultTableModel;
public class dokumen extends javax.swing.JFrame {
  private void kosongkan_from() {
    txtkodedokumen.setEditable(true);
    txtkodedokumen.setText(null);
    txtnamadokumen.setText(null);
    cmbkatagoridokumen.setSelectedItem(this);
    txtlokasi.setText(null);
    txtdeskripsi.setText(null);
    txttanggal.setText(null);
  }
  private void tampilkan_data() {
    DefaultTableModel model = new DefaultTableModel();
    model.addColumn("No.");
    model.addColumn("Kode Dokumen");
```

```
model.addColumn("Nama Dokumen");
    model.addColumn("Kategori Dokumen");
    model.addColumn("Lokasi Dokumen");
    model.addColumn("Deskripsi Dokumen");
    model.addColumn("Tanggal");
    String cari= txtcari.getText();
    try {
      int no = 1;
      String sql = "SELECT *FROM tb_dokumen WHERE nama LIKE '%"+cari+"%' ";
      java.sql.Connection conn = (Connection)konfig.configDB();
      java.sql.Statement stm = conn.createStatement();
      java.sql.ResultSet res = stm.executeQuery(sql);
      while (res.next()) {
        model.addRow(new Object[]{no++,res.getString(1),
res.getString(2),res.getString(3),res.getString(4),res.getString(5),res.getString(6)});
      }
      tabledokumen.setModel(model);
    } catch (Exception e) {
      System.out.println("Error: "+e.getMessage());
    }
 }
 public dokumen() {
    initComponents();
    tampilkan_data();
    kosongkan_from();
 }
1. Dibagian btnbatal
   private void btnBatalActionPerformed(java.awt.event.ActionEvent evt) {
        kosongkan_from();
     }
2. Di bagian btnkeluar
   private void btnKeluarActionPerformed(java.awt.event.ActionEvent evt) {
        System.exit(0);
      }
```

3. Dibagian btntambahdata

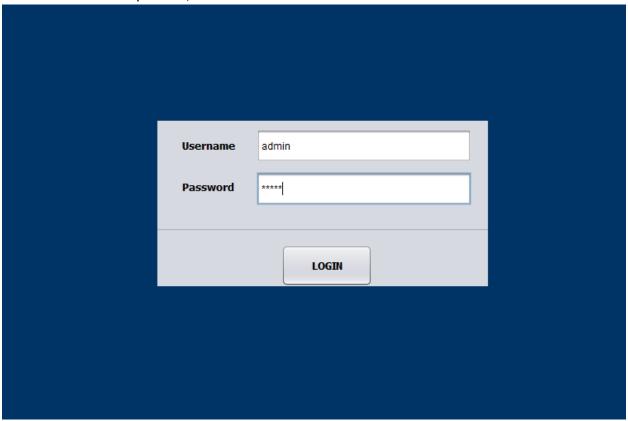

```
private void btnTambahDataActionPerformed(java.awt.event.ActionEvent evt) {
        try {
          String sql = "INSERT INTO tb dokumen VALUES
    (""+txtkodedokumen.getText()+"",""+txtnamadokumen.getText()+"",""+cmbkatagoridoku
    men.getSelectedItem()+"',""+txtlokasi.getText()+"',""+txtdeskripsi.getText()+"",""+txttang
   gal.getText()+"')";
          java.sql.Connection conn = (Connection)konfig.configDB();
          java.sql.PreparedStatement pstm = conn.prepareStatement(sql);
          pstm.execute();
          JOptionPane.showMessageDialog(null, "Proses simpan Data berhasil");
          tampilkan_data();
          kosongkan from();
        } catch (HeadlessException | SQLException e) {
          JOptionPane.showMessageDialog(this, e.getMessage());
        }
        txtkodedokumen.setFocusable(true);
      }
4. Dibagian btnsimpan
    private void btnSiimpanActionPerformed(java.awt.event.ActionEvent evt) {
          String sql = "INSERT INTO tb_dokumen VALUES
    (""+txtkodedokumen.getText()+"",""+txtnamadokumen.getText()+"",""+cmbkatagoridoku
    men.getSelectedItem()+"',""+txtlokasi.getText()+"',""+txtdeskripsi.getText()+"',""+txttang
    gal.getText()+"')";
          java.sql.Connection conn = (Connection)konfig.configDB();
          java.sql.PreparedStatement pstm = conn.prepareStatement(sql);
          pstm.execute();
          JOptionPane.showMessageDialog(null, "Proses simpan Data berhasil");
          tampilkan_data();
          kosongkan from();
        } catch (HeadlessException | SQLException e) {
          JOptionPane.showMessageDialog(this, e.getMessage());
        }
     }
5. Di bagian tabledokumen
    private void tabledokumenMouseClicked(java.awt.event.MouseEvent evt) {
        int baris = tabledokumen.rowAtPoint(evt.getPoint());
        String nik = tabledokumen.getValueAt(baris, 1).toString();
```

```
txtkodedokumen.setText(nik);
        String nama = tabledokumen.getValueAt(baris, 2).toString();
        txtnamadokumen.setText(nama);
        String jab = tabledokumen.getValueAt(baris, 3).toString();
        cmbkatagoridokumen.setSelectedItem(jab);
        String alamat = tabledokumen.getValueAt(baris, 4).toString();
        txtlokasi.setText(alamat);
        String email = tabledokumen.getValueAt(baris, 5).toString();
        txtdeskripsi.setText(email);
        String telp = tabledokumen.getValueAt(baris, 6).toString();
        txttanggal.setText(telp);
      }
6. Dibagian btnedit
    private void btnEditActionPerformed(java.awt.event.ActionEvent evt) {
        try {
          String sql = "UPDATE tb dokumen SET kode =
    ""+txtkodedokumen.getText()+"",nama = ""+txtnamadokumen.getText()+"",kategori =
    ""+cmbkatagoridokumen.getSelectedItem()+"',lokasi = ""+txtlokasi.getText()+"',deskripsi
   = ""+txtdeskripsi.getText()+"",tanggal = ""+txttanggal.getText()+"" WHERE kode =
    ""+txtkodedokumen.getText()+""";
          java.sql.Connection conn = (Connection)konfig.configDB();
          java.sql.PreparedStatement pstm = conn.prepareStatement(sql);
          pstm.execute();
          JOptionPane.showMessageDialog(null, "Edit Data Berhasil");
        } catch (HeadlessException | SQLException e) {
          JOptionPane.showMessageDialog(this, e.getMessage());
        }
        tampilkan_data();
        kosongkan_from();
      }
7. Di bagian btnhapus
    private void btnHapusActionPerformed(java.awt.event.ActionEvent evt) {
          String sql = "DELETE FROM tb_dokumen WHERE kode =
    ""+txtkodedokumen.getText()+""";
```

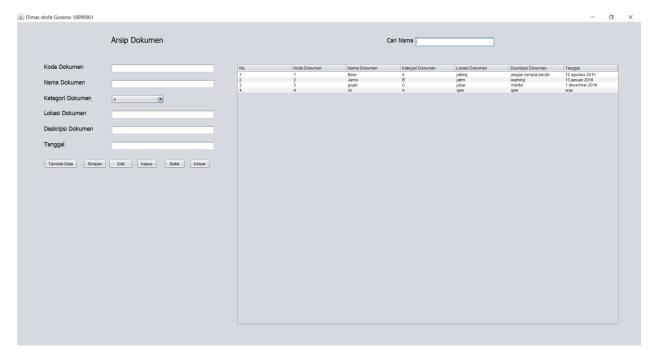

```
java.sql.Connection conn = (Connection)konfig.configDB();
java.sql.PreparedStatement pstm = conn.prepareStatement(sql);
pstm.execute();
JOptionPane.showMessageDialog(null, "Hapus Data Berhasil");
} catch (HeadlessException | SQLException e) {
    JOptionPane.showMessageDialog(this, e.getMessage());
}
tampilkan_data();
kosongkan_from();
}
```

### 5. Finish, coba di run dan liat hasilnya

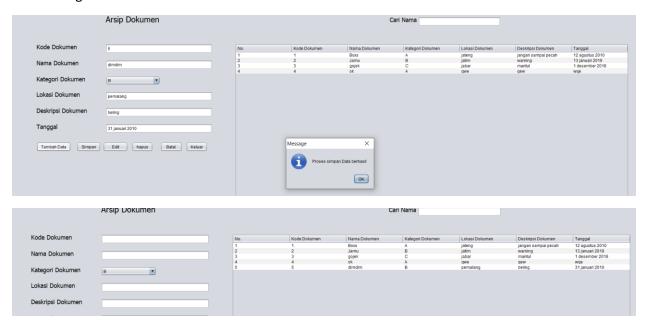

Kalau bener entar seperti ini;

#### Kalau klik login otomatis ke bagian di bawah ini

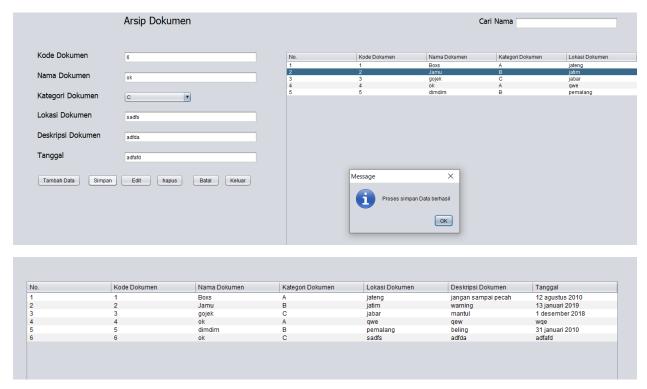

#### Ini contoh gambar btn Tambah data

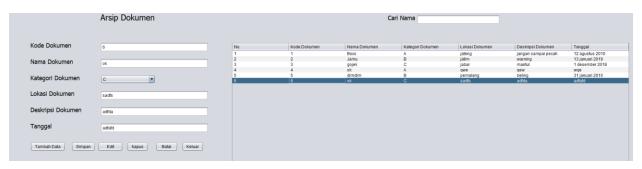

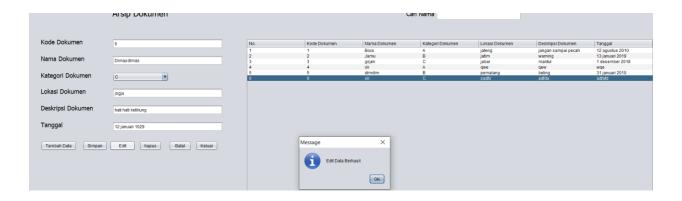

Berhasil

#### Ini contoh btn simpan

#### Ini contoh edit, contoh no 6:

No.	Kode Dokumen	Nama Dokumen	Kategori Dokumen	Lokasi Dokumen	Deskripsi Dokumen	Tanggal
1	1	Boxs	A	jateng	jangan sampai pecah	12 agustus 2010
2	2	Jamu	В	jatim	warning	13 januari 2019
3	3	gojek	С	jabar	mantul	1 desember 2018
4	4	ok	A	qwe	qew	wqe
5	5	dimdim	В	pemalang	beling	31 januari 2010
6	6	Dimasdimas	С	jogja	hati hati ketikung	12 januari 1029
